PROFILE

Full-stack software engineer with 3+ years of experience building and shipping production web applications, from backend services to responsive frontends. Comfortable owning features across the whole stack, diagnosing complex production issues, and working in cross-functional teams. Actively expanding my skills in cloud and AI: currently preparing for the AWS Solutions Architect – Associate exam and building LLM-powered apps with RAG.

WORK EXPERIENCE

Software Engineer (Full-Stack) — Lingoking GmbH
Feb 2024 – Sep 2026

Munich (remote), Germany | PHP, Symfony, API Platform, PostgreSQL, TypeScript, Vue.js, Neos, Docker, GitLab, Stripe

- Helped rebuild the customer-facing and internal applications from the ground up, replacing a legacy system with a modern Symfony/API Platform backend and a Vue.js frontend. After the legacy system was replaced, the number of B2B customers doubled.
- Delivered full-stack features end to end, backend and frontend, in an engineering team of 7–15 people.
- Owned 2nd-level technical support: diagnosed and resolved production issues escalated by first-level support.

Software Engineer (Backend) — Faaren GmbH
Sep 2023 – Nov 2023

Würzburg (remote), Germany | PHP, Laravel, MySQL, TypeScript, Vue.js, Docker, Stripe

- Built and shipped backend features for a car-subscription platform using PHP/Laravel.
- Implemented UI features in close collaboration with the frontend team.

Software Engineer (Full-Stack) — Modoplus GmbH
Aug 2022 – Jun 2023

Hamburg (remote), Germany | TypeScript, NestJS, tRPC, Next.js, Mongoose, Mapbox, Google Cloud, Stripe

- Integrated a secure Stripe payment gateway, enabling online payments in the application for the first time.
- Optimized NestJS REST APIs and introduced tRPC for type-safe, better-performing client-server communication.

Frontend Software Engineer — Desseinlab
Jan 2020 – Jun 2021

London, United Kingdom | TypeScript, JavaScript, React.js, Vue.js, PHP, Laravel, Java, Spring Boot, Express.js, MySQL, MongoDB

- Built responsive, component-based interfaces with React and Vue.js as part of a MERN-stack product.
- Connected frontends to REST APIs (Express.js, Laravel) and refactored code with improved documentation for easier maintenance.

SKILLS

Backend	PHP, Symfony, API Platform, Laravel, Node.js, NestJS, Python, Django, Java, Spring Boot
Frontend	TypeScript, JavaScript, Vue.js, React, Next.js, HTML5, CSS3, Tailwind CSS
Data & Cloud	PostgreSQL, MySQL, MongoDB, AWS, Google Cloud
Tools & DevOps	Linux, Docker, Git, GitLab, Shell
AI-assisted dev.	ChatGPT, Codex and Claude; LLM APIs, RAG, vector databases, LangChain
Languages	German (B1, B2 course in progress), English (fluent)
Driving licence	Class B

EDUCATION

B.A. Business Informatics (Wirtschaftsinformatik) — Fachhochschule Südwestfalen, Soest 2021 – 2022

B.Sc. Computer Science & Engineering — North East University, Bangladesh 2015 – 2019
